FISCAL YEAR 1966

Total Town Appropriations	\$ 33,144.95	
Total School Appropriations	189,608.76

School	<u>42,366.62</u>	
		<u>62,330.53</u>
Amount to be Raised by Property Tax		<u>\$173,599.85</u>

Tax Rate is computed as follows:

Amount To Be Raised By Property Tax	\$173,599.85	
Net Property Valuation	2,411,109.00	= Tax Rate
		\$7.20

To be distributed as shown below:

Town	\$.61
County	.48
School	<u>6.11</u>
	\$7.20

In comparing this distribution with previous years we find:

Town	1963	1964	1965
Town	.97	.90	.92
County	.32	.39	.55
School	<u>5.31</u>	<u>5.25</u>	<u>4.97</u>
Tax Rate Per Hundred	6.60	6.54	6.44

In 1967, each \$1000.00 increase in appropriations, will increase your tax bill 41 cents per \$1000.00 of valuation.

For example: If your assessed valuation is \$2000.00 and you vote an increase in the total appropriation of \$20,000.00, you will pay \$16.40 more tax than you did in 1966. This would amount to an 11% increase in your tax bill.

Report of the Fire Department

The Fire Department responded to 20 calls during 1966. Eight of these calls were for brush fires, three building fires, one chimney fire three calls for assistance out of town, one car fire and four drowning and resuscitator calls. The forest fire hazard was relatively low throughout the year.

A new furnace was installed in the fire house and the exterior and part of the interior was painted.

Sumner A. Hayes,
Chief

Report of Forest Fire Warden and District Chief

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966).

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us: (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 a.m. and 5:00 p.m. except on rainy days. Permits are not

needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.

2. Be sure all discarded smoking material is out.

3. Don't leave a live camp or cooking fire.

4. Most important – Instruct your children that matches are not play things.

Truly – Only You Can Prevent Forest Fires!

Permits issued in Town – 112

White Pine Blister Rust Control

In 1966 your town appropriated funds for continuing control of the White Pine Blister Rust in cooperation with the Division of Resources Development. Final returns to the Division showed that 143 towns and cities, once again the largest number in the history of the work, did likewise. This vote of continued confidence in the Department by the public is most encouraging and sincerely appreciated.

Conforming to our yearly custom, there has been prepared, and is attached herewith, a statement briefly summarizing accomplishments, and expenditures of town, state and federal funds.

In our financial statement, the amount reported as "Cooperative Aid" covers not only expenditures for actual ribes eradication, but also state and federal funds spent in 1. detailed mapping and inspection of areas prior to actual control work, 2. research work that has reduced the size of the control area, and 3. research in control methods to reduce costs of control work. The mapping survey provides a permanent record which is of great value in planning future examinations of white pine stands in your community.

The importance of the Blister Rust Control Program is evidenced by the prominent place white pine holds in our state economy - 1. approximately 70% of all lumber cut in New Hampshire is white pine; 2. 17% of our New Hampshire labor force is sustained by revenue derived from white pine timber sales, woods operations, the manufacture and sale of hundreds of white pine products. All of this was endangered by the advent of the destructive White Pine Blister Rust Disease.

New Hampshire faced a most difficult task, that of marshalling forces to combat the rust. It had the largest control area in the United States - 2,500,000 acres. To meet the situation, town, city, state and federal forces combined in a unique effort. All government agencies contributed funds to finance the project. The State was assigned the responsibility of directing the field work. These arrangements are still in force. The combined effort has been successful. Control of the disease has been established on 93.7% of the entire control area. Our problem is to hold the line and maintain the hard-earned control status by periodic examination of control areas to determine the recurrence of currant and gooseberry bushes and, when found, destroy

them. Continued cooperation on the part of towns and cities is essential to the achievement of this goal.

Report of the Supervisors of the Building Code

Your Supervisors of the Building Code have had another busy year this past year. On a national level, construction has tended to drop off, but not so in Barrington as is indicated by the following figures:

Permits Issued in 1966

No. issued	Description of Structure	Value
10	New Homes	\$127,500.00
9	Additions to Existing Homes	11,550.00
21	House Trailers	55,840.00
32	Summer Camps	92,000.00
1	Apartment	20,000.00
1	Church	2,000.00
5	Garages	9,080.00
1	Industrial Building (Post Office)	<u>10,000.00</u>
		\$327,970.00
28	Permits issued on a no-charge basis because total material involved in each request was less than \$500.00	\$77,914.00

The dollar value shown above, represent the applicants estimates of cost of construction and may or may not include labor.

These figures tend to indicate that Barrington is in a rather unique

position relative to its neighbors. Because of its geographic relationship to DOVER, DURHAM and ROCHESTER, it is slowly becoming a bedroom town. In addition, because of its many lakes and ponds, Barrington is providing an attraction for many non-residents. We consider the latter to be one of Barrington's major industries.

There are those in Barrington who feel that the Supervisors of the Building Code and the regulations they administer interfere with their inalienable rights to do what they wish with their property. This is not the case or is it the wish of any member of this group.

Our group is the means by which you can protect the value of your property and your investment.

Our work provides 3 important benefits to Barrington and you:

A. It provides valuable information for the assessing officials to use when they are called upon to do so by the Tax Commission.

B. It sees to it that proper building practices are followed in the construction of a dwelling, as we mentioned before, to protect the value of your investments and to protect the persons who will reside in the dwelling.

C. On occasion it has provided a small source of income to help offset the heavy tax burden we are required to carry in this day and age.

We, more than anyone else, recognize that the rules we work by, are not necessarily the best but with your cooperation, they can be made fair and equitable for all.

Finally we would like to express our deepest regrets over the passing of Mr. Benjamin Mansfield, our associate. Mr. Mansfield has worked side by side with us and in your interest, executing the duties and responsibilities of his office.

Report of the Dog Officer

Again this year, under the provisions of RSA 466:1 the number of applications for dog licenses has increased. So too has the N.H. Fish and Game Departments concern for the problems created by dogs chasing wild game, the latter being one of New Hampshires important natural resources. We have done all in our power to assist them in this problem when called upon to do so. (RSA 466:36)

We are also assisting the town clerk in setting up a system which will provide us with an up to date list of Dog Licenses issued. Under this system, any dog reported to us as running astray and picked up by us who wears a Barrington license tag can be returned to its owner promptly.

In the case of stray dogs, we pick up, whose ownership cannot be determined, our practice will be to deliver said dog to a veterinarian for disposal.

For your consideration, our activities in 1966 were as follows:

20 stray and unlicensed dogs and cats apprehended and turned over to the veterinarian for disposal.

4 stray dogs picked up and returned to owners.

1 stray dog picked up and delivered to state authorities as a possible rabies suspect.

Assisted town clerk in collecting 35 delinquent dog permits.

Assisted the N.H. Fish and Game Department in tracking and apprehending 10 dogs which were maming and molesting wild life.

Auditor's Report

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited covering the fiscal year ended December 31, 1966. Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk and Trustee of the Edna Locke Trust.

Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks.

Not included in the audit were the records of the Supervisors of the Building Code.

Report of the Lakes Region Association

As the Lakes Region Association enters its thirty-second year of service to the thirty-one towns and three cities it represents, we face the annual task of appeal to our communities for support of their association. Regional cooperation in economic development as practiced by the Regional Associations in New Hampshire, was once most unique, but now several other states have watched the fruits of our efforts and have adopted a similar program for their state. We present herewith our request for your consideration in the preparation of your town's 1967 Budget.

An investment in the future development and promotion of the Lakes Region equal to 1/100th of 1% of the assessed valuation is the basis for our request to each town and city for the 1967 budget of our Association. The computation for each municipality appears at the end of this prospectus.

Your Association becomes the catalyst in coordinating action between the state agencies and the local communities, so that the greatest benefits from research, planning, development and promotion can all be realized in our Region.

We certainly hope that your municipality will participate in support of the Lakes Region Association, for it is with the united support of all shoulders to the wheel, that the wheel of progress turns.

The Lakes Region Association is vitally concerned with every aspect of regional development concentrating on those problems which are likely to affect the orderly growth and development of one or more of our municipalities. The Regional Association is acutely conscious of the necessity to preserve the unspoiled beauty of our rural towns and protect the amenities of life for which our Region is justly proud.

Planning the economic development of our municipalities is an important objective of our current programs and it should be noted that these operations are certain to bring additional substantial benefits to the cities and towns.

In addition to the annual edition of our "Where To In The Lakes Region" booklet, your association publishes the Lake Winnepesaukee Navigation Chart, the Lakes Region Map, the Sportsmen Guide to Accommodations in the Lakes Region and the Lakes Region portion of the New Hampshire Accommodations and Dining Directory. These several pieces of literature total over 300,000 pieces of promotional material on our Region.

We feel this is a very vital part of our efforts as the Vacation Travel business generates over \$320 million dollars per year to the states' economy.

Never before has the need been greater to combine funds to get the greatest return for all. Through the Region program your community finds its spokesman to the interested visitor, who wishes more information to his many questions about purchasing land, or buying a seasonal or retirement home.

Our office gets weekly requests from national magazine writers for photographs and reference material. We try hard to fill these requests for this type of promotion of our Region is done in the best of taste and could not be purchased. 1966 saw our office service just over 10,000 individual requests for information about the Lakes Region. For example the cost for postage alone to reply to these inquiries with our literature was \$1,500.00 This is only one of the many services performed by our office.

It is the town appropriations that permit us to publish literature answering these questions, to purchase photographs to provide the best editorial coverage, to work with local chambers of commerce on special projects, to be the representative for the towns too small to support their own chamber. Your Regional Association is a watchdog over legislation that will aid your community. Appearance at local and state hearings for highways, pollution problems, planning sessions, water levels and countless other meetings in your behalf is only another of our duties.

The State of New Hampshire - Warrant

To the Inhabitants of the School district in the town of Barrington qualified to vote in district affairs:

You are hereby notified to meet at the Barrington School in said district on the 13th day of March 1967, at eight o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
9. To see if the district will vote to accept the provisions of Public Law 89-10 (Elementary and Secondary Education Act of 1965), and to appropriate such funds as may be made available to the district under said Federal Act for such particular projects as may be determined by the school board. Further, to see if the district will authorize the school board to make application for such funds and to expend the same for such projects as it may designate.
10. To transact any other business that may legally come before this meeting.

Given under our hands at said Barrington this 15th day of February 1967

St. Thomas Aquinas					3	—
Spaulding High	9	7	10	7	33	\$ 437
Total High School Pupils	33	26	28	22	112	

As school opened this fall, the new addition was ready for occupancy. Although some few details were left to be completed, the rooms were available for use by students and teachers. The additional space relieves crowded and inadequate facilities which had been pressed into use by increased enrollments.

Several changes in personnel were noted this year. Mrs. Mary Dean Mrs. Marcia Stern, Mrs. Arlene Goodrich, Miss Cynthia Place, and Mr. Joseph Rice joined the faculty to replace teachers who had moved to new locations. The new teachers have a broad background in education and should be a valuable addition to the staff.

These are changing times in educational circles, and signs point to growth and innovation in the immediate future. The AREA Concept and Co-operative School Districts will receive much attention in the wake of recent State Board of Education pronouncements concerning secondary school enrollments. There will be a continuance of Federal programs which will affect education in one form or another. We should be watchful and informed so that our decisions, concerning the education of boys and girls, will be based on facts rather than emotions and hearsay.

Throughout these days ahead we will appreciate, as in the past, your continued cooperation in the best interests of boys and girls.

Respectfully submitted,
RAMON MARTINEAU
Superintendent of Schools

JOHN HOUGHTON, JR.
Assistant Superintendent of Schools

Report of the Principal

Barrington School concluded its school year on June 18, 1966, with the graduation of its thirty-five eighth graders. The school year also finished with two of our classrooms still functioning in temporary quarters. However, the progress on our new addition of four rooms is most encouraging at this point and leads us to anticipate moving some of our classes into newer quarters in September, 1966.

Other than a need for expansion in the physical sense, the school stands to gain considerably if expansion and development can be continued in such areas as physical education, library resources, art education, and music education. Expansion cannot be the sole guideline for a school. The school must constantly evaluate existing areas of curriculum such as modern mathematics and the new science series. Also, only by carefully investigating some of the more recent advances in the broad field of education, can the school find the best workable combination of the new and the old which will best serve the young people of the community.

Report of the School Nurse

To the Superintendent of Schools:

It gives me much pleasure to present this report of the health program as carried out in the towns of Barrington, Epsom, Northwood, Nottingham and Strafford during the school year of 1965-66. I feel this has been a very successful year with complete dental health programs being carried on in the towns of Epsom and Northwood, plans being made by Barrington for such a program in the coming year, and a full-scale tuberculin testing program with follow up X-rays having been completed in all of the schools except Epsom. Here again, arrangements have been made for Epsom to participate in 1966-67.

Each school has had its share of the various contagious diseases and skin eruptions, but these were well controlled and presented no major problem. The parents were most cooperative in this matter, as well as in obtaining professional care and treatment for any reported

physical defects. Such cooperation is a necessity in carrying out an effective school health program, and I wish to express my sincere appreciation for it.

The following is a brief summary of the health services provided in each school during this past year:

During this school year, glasses were provided for one child by the Concord Lions' Club, and the New Hampshire Sight Conservation

Program provided eye examinations and glasses for four more children.

Pre-school clinics for registering children for grade 1 were held during the spring of 1966, and were attended by 24 children at Barrington, 30 at Epsom, 24 at Northwood, 12 at Nottingham and 12 at Strafford. These clinics were conducted as in previous years except in Strafford. There, the children were accompanied to school by one or both parents. Registration was done by the principal and the nurse checked vaccinations and discussed with the parents any health problems which the child might have. Each child and parent was given an opportunity to visit in the first grade classroom.

The Heaf Tuberculin Test was administered in four of the schools with 255 students and faculty members taking advantage of this service in Barrington, 194 in Northwood, 122 in Nottingham and 137 in Strafford. Later an X-ray clinic was held at the Northwood Elementary School. The necessary equipment and technicians to run it were provided by the N.H. Tuberculosis and Health Association. Chest X-rays were taken of 48 people at this clinic.

Dental programs for cleaning teeth and receiving applications of topical fluoride (this solution is known to reduce decay in the teeth) as well as programs to provide fillings and/or extractions were organized in both Epsom and Northwood.

The Epsom programs were jointly sponsored by the New Hampshire Bureau of Dental Health and the Epsom Parent-Teachers Organization, while those in Northwood were sponsored by the New Hampshire Bureau of Dental Health, the Harvey Lake Women's Club and the Northwood Parent-Teachers Association. Contributions were also received from numerous organizations and businesses in Northwood. The dental health committee members in both towns should be commended for the services they performed in setting up these clinics, keeping records, and in providing transportation when needed.

I wish to take this opportunity to thank Mr. Martineau, Mr. Houghton, members of the School Boards, the teachers, the parents and the children for their consistent helpfulness.

Respectfully submitted,
Dorothy Y. Wells, R.N.
